1. Program request type:  Undergraduate     Graduate     First Professional (ex., DVM, JD, MD, etc.)
2. Request change for:  Degree Program     Minor     Certificate
3. Request submitted by (Department or Program Name): Recreation, Park and Tourism Sciences
4. Program Designation and Name (e.g., B.A. in History, Minor in History, Certificate in European Union): Tourism and Hospitality Management - Certificate
5. **Brief** description of change: Revise the name of the certificate to Hospitality Management. Code the Certificate as Standalone instead of Embedded. In addition to U1-U4, students with U5, G6, G7 and G8 status may apply.

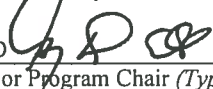

6. Rationale for change: The original name causes confusion because we have an Embedded Certificate entitled "Tourism Management." This Certificate was always intended to be Stand-alone, but the initial form contained an error. We wish to accommodate U5 and higher students with an interest in this Certificate, with particular applicability to athletes who have 2 semesters of eligibility after completing their bachelor's degree, but are not good candidates for graduate school. G6 and G7 students from other Colleges have expressed interest and obtained permission from their advisors to apply for the Certificate.

**Hospitality Management Certificate Program**  
**Department of Recreation, Park & Tourism Sciences, Texas A&M University**  
**Open to All Majors**

The Hospitality Management Certificate Program (HMCP), offered by the Department of Recreation, Park and Tourism Sciences, is designed to provide students with an understanding of the planning, analysis, and decision-making techniques needed for management positions in the tourism and hospitality industries. Students will study and develop skills related to principles of management, sustainability, development, cultural tolerance, marketing, finance, and service quality as they apply to the hospitality and tourism industries.

The HMCP requires a minimum of 15 credit hours in designated courses, all of which are to be taken online. If a student has taken the on-campus version of any course prior to enrollment in the Certificate, it may be substituted for the on-line version with permission of the RPTS academic advisor. Students must earn a grade of “C” or better in each course used to meet the requirements, and an overall average of at least 2.5 in applicable coursework.

All TAMU undergraduate students, including U5 students, as well as graduate students with G6, G7 or G8 status (with permission of their advisors) may apply for admission to the certificate program. Specific certificate requirements, details and an application are available at <http://rpts.tamu.edu/online-tourism-and-hospitality-management-certificate/> and in the Undergraduate Programs Office of the department of Recreation, Park and Tourism Sciences. Students are encouraged to apply prior to completing coursework as there is no guarantee of admission to the program.

Applicants must fulfill the following requirements in order to be considered for the program:

- An overall TAMU GPA of 2.0 or higher is required for acceptance into the HMCP.
- Must complete the HMCP application and essay.

# Recreation, Park and Tourism Sciences - BS, Youth Development Certificate

The undergraduate curriculum leading to a Bachelor of Science degree with a major in Recreation, Park and Tourism Sciences provides students with an education in recreation, park and tourism sciences, with an emphasis on problem-solving skills, development of an international perspective and the application of scientific principles to managerial problems. The first two years of studies build a foundation that spans a wide range of disciplines and bodies of knowledge in the arts and sciences and provide the student with an introduction to the history and concepts of recreation, park and tourism sciences. The second two years prepare students with the knowledge and skills for both entry-level positions and for future professional growth in the field. In addition to core courses, students must fulfill requirements for at least one certificate, but may earn additional certificates.

Through the curriculum, students develop the depth and breadth of knowledge needed to scientifically investigate and select among alternatives as well as the intellectual skills to organize and integrate their knowledge in new and more effective patterns. An education in recreation, park and tourism sciences prepares students to become professionals with the capacity to learn from life and throughout life.

The department maintains links with other resource-management programs within the University as well as exchange programs with other academic entities. Supporting programs at Texas A&M include the resource management programs in Rangeland Ecology and Management, Wildlife and Fisheries Sciences, and the Sports Management Specialization in the Department of Health and Kinesiology.

## Youth Development Certificate

This option focuses on programs and services that contribute to the development of young people's personal, physical, social and educational abilities. Youth workers are program developers, leaders and managers who need to be able to work with youth, families, organizations and communities. Coursework in this option focuses on positive youth development, program planning and evaluation, methods for working with young people, and societal factors that both contribute to and inhibit the development of young people. Students with an option in this field look forward to careers with non-profit, public and for-profit agencies that supply youth development opportunities for young people. Settings include after-school programs, community programs, camps, outdoor adventure and church-related recreation programs.
