Hide Courses* Remove Hidden Courses**

In order to streamline the degree audit process, departments may request that routinely substituted courses be “hidden” so that they are automatically applied to a student’s evaluation rather than have to submit an adjustment. Hidden courses will not be listed in the text of the degree evaluation, and hiding courses should not be considered a substitute for revising curricula through the curricular process. Hidden courses being placed into Core Curriculum areas must have the appropriate University Core Curriculum attribute.

Requests to hide/remove hidden courses must be submitted on this form, and all fields on this form are **required**. Only one program, inclusive of the concentration, may be modified per form. If the program does not have a concentration, mark the “N/A” for the Concentration Code. Do not mark “All” in the Concentration Code field. Incomplete forms will not be processed and will be returned.

This form applies to the following types of programs: undergraduate (degrees, minors, certificates); graduate (certificates); first professional (degrees).
